

Note: A Traffic Analysis Zone (TAZ) is a small geographic area within the study area. It is a building block for traffic analysis studies.

Future Population

- Of the projected population growth within Kent County between 2000 and 2030, 18% will happen in the study area and vicinity.
- The greatest rates of population increase are forecast for areas to the west.

Future Employment

- Of the projected employment growth within Kent County between 2000 and 2030, 56% will happen in the study area and vicinity.
- The greatest rates of employment increase are forecast for areas to the north and east.

- The combination of population growth to the west and employment growth to the north and east will result in significant traffic increase on study area roadways.
- Population and employment projections lead to **NEW LAND DEVELOPMENT** in the study area and vicinity (displayed on the next board).
